- j. Turn Table
- k. Rear Guard
- l. Wheels

ELEMENT FIRES

HOT, SAFE & SMOKE FREE ENTERTAINERS.

Element Fires are 100% Australian owned and made in Victoria's high country.

Their patented design radiates the optimum amount of heat from the minimum amount of firewood whilst fluing away unwanted smoke.

Element fires are also the safest option for your family and guests. Their double skin provides an insulative barrier between the fire box and young (or old) hands. At only 75kg they can be moved anywhere, including undercover and are deck safe.

So next time you're "smoked out", "can't get warm", wish for a slow cooked rotisserie or fast cooked pizza, the answer is elementary.

We picked up our fire & had it burning all Saturday night for my husbands bday! All our guests loved it too. Thanks heaps, it looks awesome :)

COOKING & ACCESSORIES

COOKING: 3 minute wood fired pizzas, 60 second “stir fries”, slow cooked rotisserie meals, and simple snags are all easy with Element Fires cooking accessories. The pizza oven, rotisserie, hot & wok plates all retro fit to any Element Fire.

ACCESSORIES: A wheel set, deck and heat guards, a night door and different chimney types come standard with our models or retro fit at any time to fit any Element fire to any situation.

See our Product Chart to match an Element fire to suit you.

We used the pizza attachment for the first time on Friday night, let's just say we were more than impressed, the kids loved it too.

- Harry, Bendigo
